

WIA COORDINATION AND LICENSING FEES
Effective November 1, 2022

Mobile Only Systems (all Frequency Bands)

Mobile only (MO) per Form 601* for up to five frequencies per Form 601	\$140
Mobile private carrier (MO6) – 6 each per Form 601 below 470 MHz	\$220
Mobile private carrier (MO6) – 6 each per Form 601 above 470 MHz	\$340
Application preparation for mobile only systems in all bands	\$75

*Systems with areas of operation more than fifty miles apart are charged individually for each area of operation.

Fixed Systems below 470 MHz

Includes base/mobile (FB), repeater (FB2), community repeater (FB4), private carrier (FB6), non-profit cooperative (FB7), temporary fixed stations (FBT, FB2T) and fixed station point-to point operations (FX1, FX2, FX0)

New frequency or frequency pair	\$220
Change or relocation of an existing frequency for systems in this category	\$220
Change radio service from IG to IK to YG or YG – trunking	\$220
Additional contiguous (sites within fifty miles) re-used base station frequency	\$80
YG Trunk Systems FB8 Station Class (includes contour analysis)	\$300
Add-on to existing community repeater (FB4)	\$100
Application preparation for fixed base systems in this category	\$150

Base Systems 470-512 MHz, 800 MHz, 900 MHz, and 929 MHz

New frequency or frequency pair	\$350
Change or relocation of an existing frequency for systems in these categories	\$350
Additional contiguous (sites within fifty miles) re-used base station frequency	\$75
800 MHz Expansion and Guard Bands or Sprint Vacated Spectrum	\$500
470 MHz applications that require interference analysis	\$400
Application preparation for fixed base systems in these bands	\$220

Miscellaneous Services (All Frequency Bands)

Construction notification filings	\$75
Late filed construction notification with a standard waiver request	\$150
Height above average terrain (AAT) calculation	\$10
Minor modifications to change antenna height, power, ERP, number of units, area of operation, emissions, or relocation of control stations	\$100
Renewal Only application filings	\$100
Assignment of Authorization filings (Form 603) (*excludes LLC's, LP's, and LC's)	\$600/call sign

WIA Technical Analysis Fees

Service to interference FB8 contour analysis	\$80
800/900 MHz DHAAT 40/22 dBu Short-spacing study - price per station	\$50

Returned Applications and Applications Filed Without WIA Certification

All applications below 470 MHz and all mobile only applications	\$100
Base station above 470 MHz	\$175

FCC Fees (Frequency Band/Type of Service) – as of April 19th, 2022

Below 470 MHz	\$195
470 MHz and above shared	\$345
Modification Applications (Varies based on type of modification)	TBD
Waiver request	\$380
Non-Profit entities do not pay the Regulatory Fee*	\$95
*Must provide a copy of their 501(c)(3)
